## PROJECTS

---

- Phishing Page Detection** Mar' 2023  
This project is based on **AI/ML** which helps us to check whether the page we are surfing is safe or it's a phishing page. In addition to that there is an **extension** which is going to check where the website is safe or not. [Link](#)
- PARCOOD EXPRESS** Nov' 2022  
This is an E-commerce website where we serve all the facilities similar to other websites but in addition to that we are having online Tiffin service and parcel pickup and drop facility. [Link](#)
- NewsBox** Jun' 2022  
This project is **React** based project.. It offers services like providing Top trending news of any country. It has various sections like Sports, Entertainment, Health, Business etc. which helps the user to read his/her own part of interest . It uses an API named **NewsApi** for the fetching of News. [Link](#)
- WEATHER REPORT** April' 2021  
This project is **React** based project. It offers services like providing current temperature of any city as per user requirement. Along with that it provides a special feature of **language translator** which translates the project to any regional language for the betterment of the user. [Link](#)
- Portfolio** Sept' 2022  
This is my portfolio which is made by using **React.js** framework . [Link](#) [Site](#)
